EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Independent claims 1 and 8 are allowable because the prior art of record does not disclose or reasonably suggest a combination of determining whether an average compression ratio of temporally modified data frames of an audio signal corresponds to an overall target compression ratio, and automatically adjusting a next current frame or segment of transmitted data frames of an audio signal to maintain an overall target compression ratio. It is known in the prior art to change a compression ratio of transmitted data frames of an audio signal to respond to network conditions. However, the prior art of record does not disclose or reasonably suggest maintaining an overall target compression ratio from an average compression ratio for a temporally modified audio signal. Applicants' Specification, Page 4, Lines 20 to 22, and Page 6, Lines 1 to 6, states an advantage of providing a flexible technique for minimizing any perceivable artifacts.

Independent claims 8 and 26 are allowable because the prior art of record does not disclose or reasonably suggest a combination of determining a content type of each segment of data frames from a received audio signal including voiced segments and unvoiced segments, and automatically adjusting a next current frame or segment of transmitted data frames of an audio signal to maintain an overall target compression ratio. It is known in the prior art to change a compression ratio of transmitted data frames of an audio signal to respond to network conditions. However, the prior art of

record does not disclose or reasonably suggest maintaining an overall target compression ratio for a temporally modified audio signal based upon a content type of voiced or unvoiced segments. Applicants' Specification, Page 4, Lines 20 to 22, and Page 6, Lines 1 to 6, states an advantage of providing a flexible technique for minimizing any perceivable artifacts.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
